Asymmetric Encryption

Example

Asymmetric Encryption

Public Key

- Share with everyone
- Not secret
- Encrypt data

Private Key

- Cannot share
- It's secret
- Decrypt data

Asymmetric Encryption

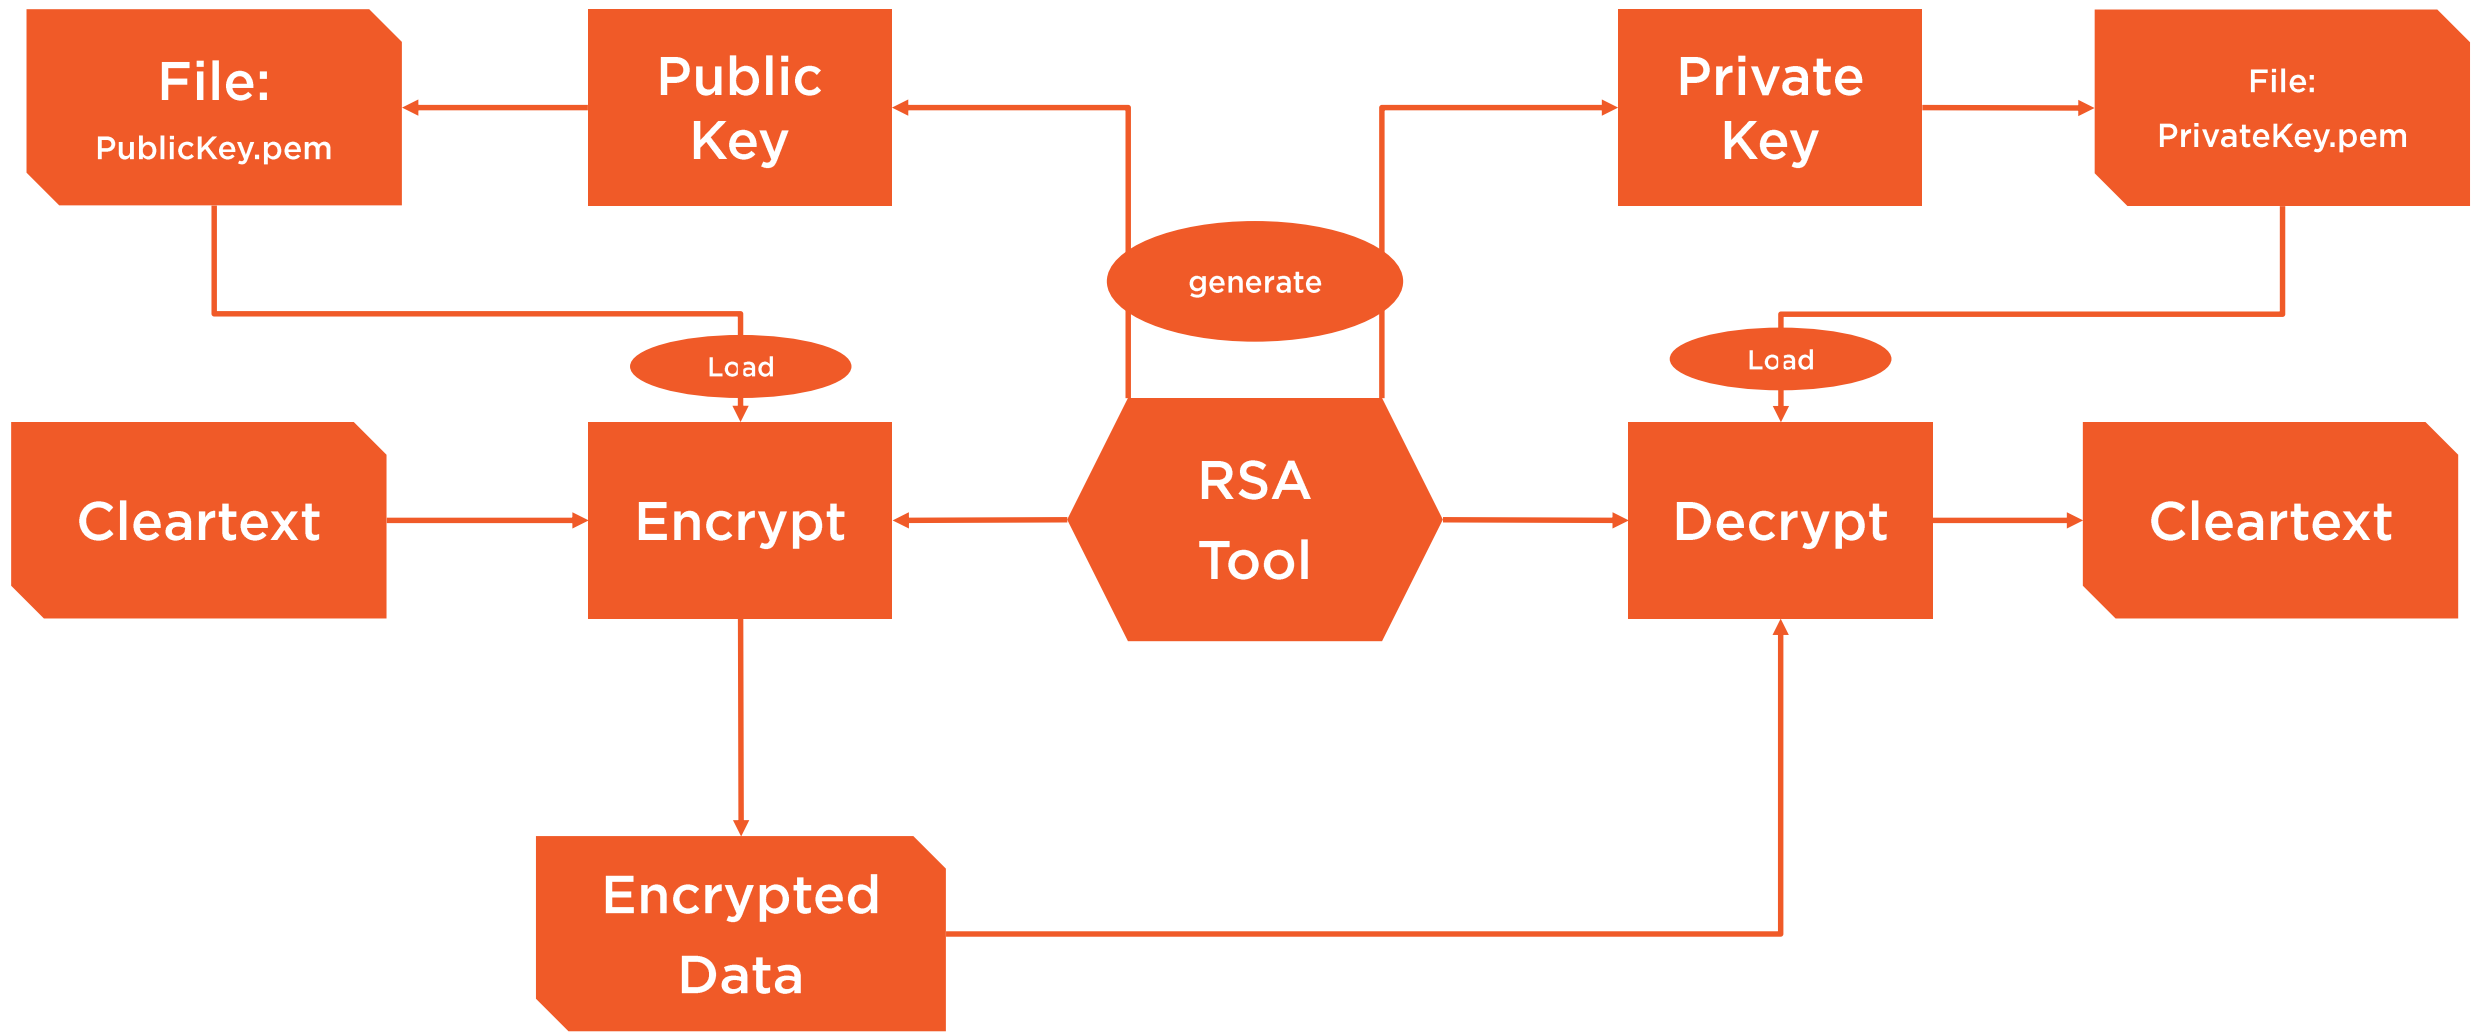

- Slow
- RSA – 2048,4096 bits
- ECC (Elliptic Curve Cryptography)

RSA In Python

RSA

Digital Signature In Python

Digital Signature

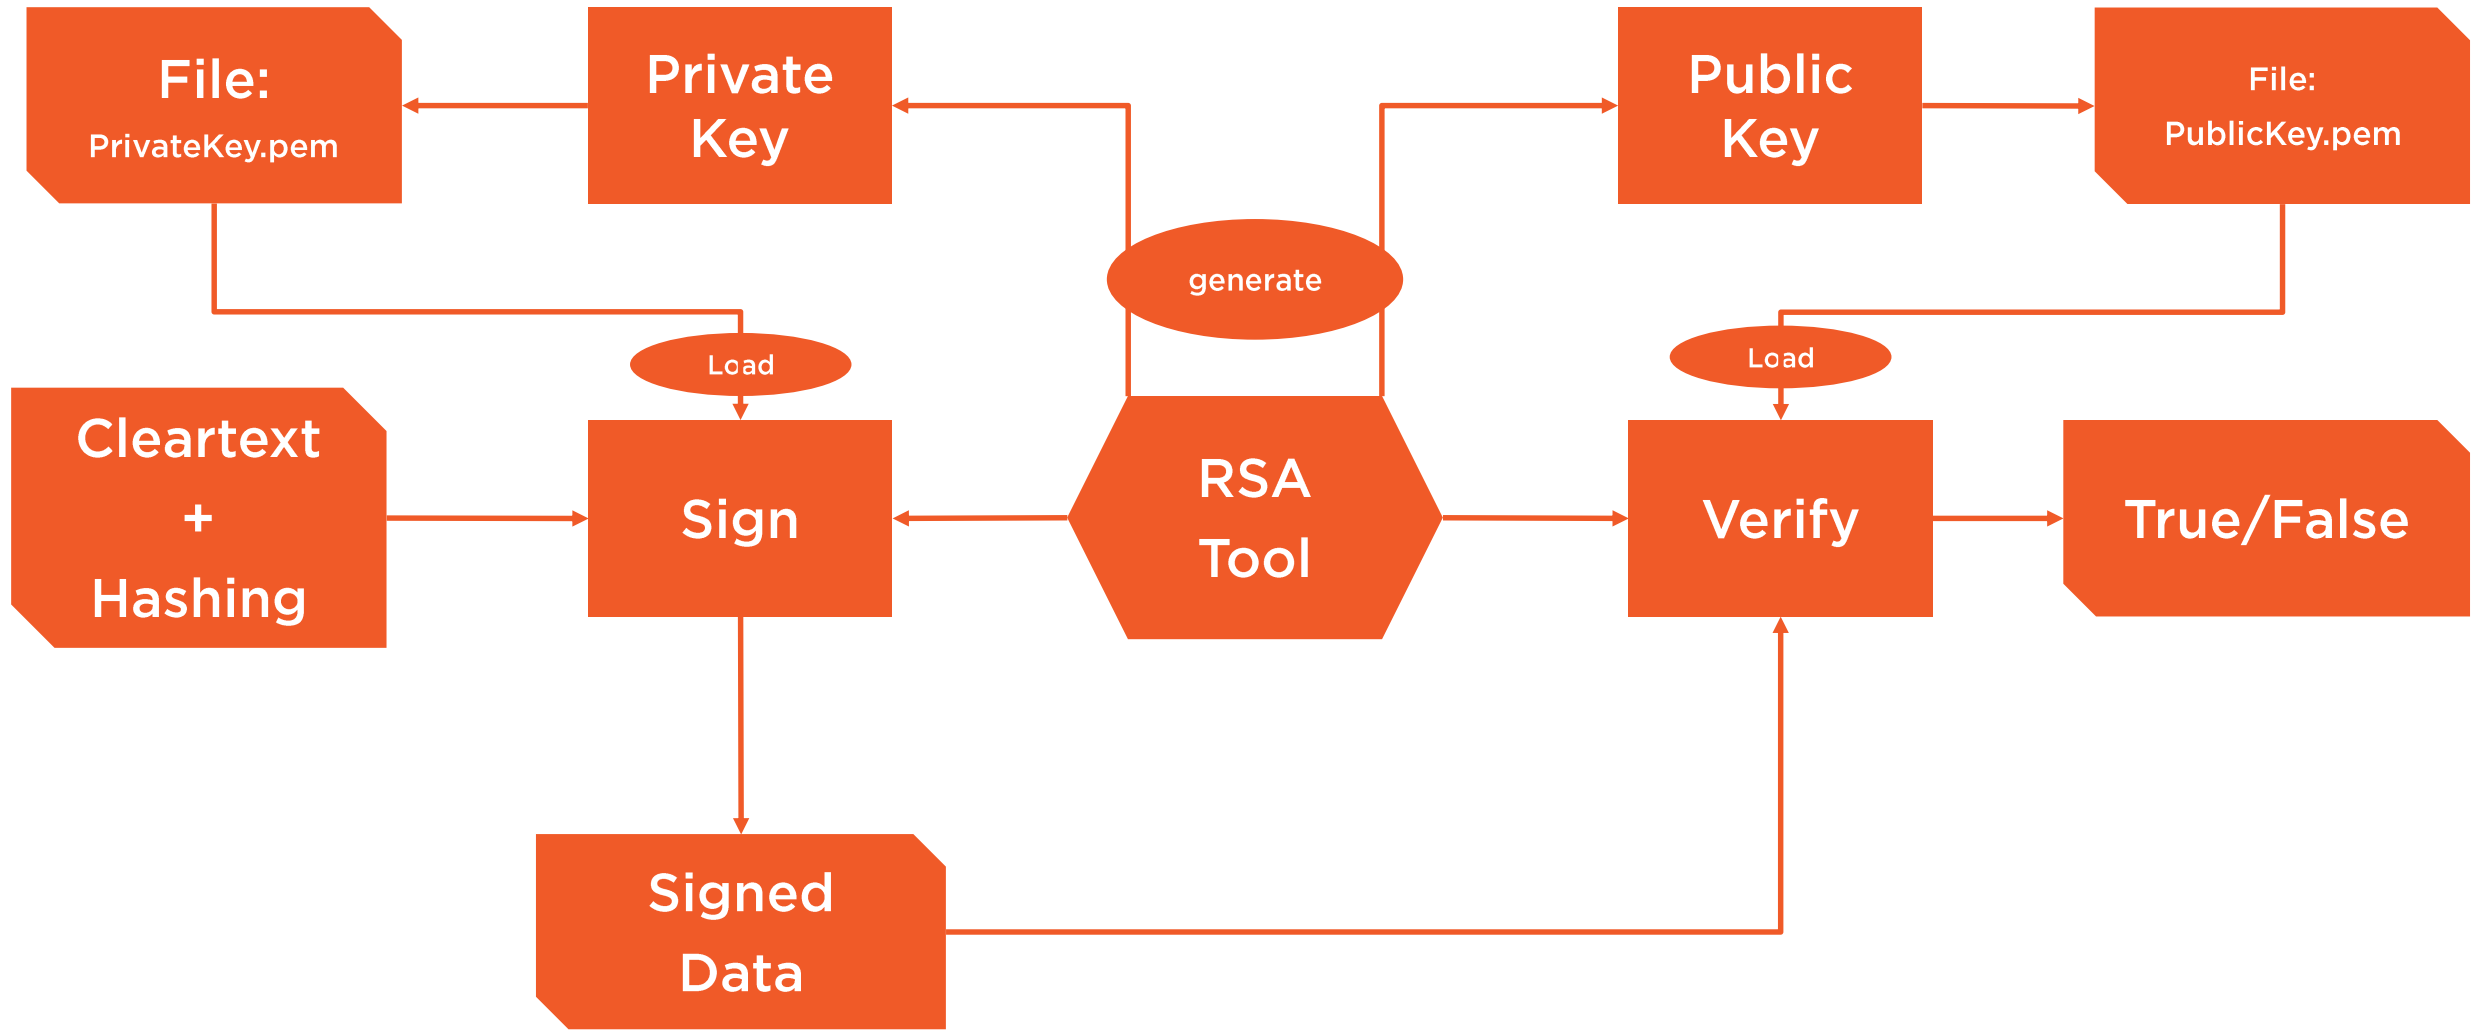

- ❖ Authentication
- ❖ Non-repudiation
- ❖ Integrity

Example

Digital Signature In RSA

Summary

Asymmetric Encryption

- Overview
 - Public / Private keys.
 - RSA → 2048, 4096 bits
- RSA in Python
- Digital Signature in Python
